

FY 2022 Appropriation

Department: Office of the Governor
Division: Office of Drug Policy
Description: Federal prevention services funding

Sponsor: Representative Green
Representative Troy

1. Background

This is an FY 2022 appropriation bill for the Office of Drug Policy and includes \$1,600,000 onetime from the Federal COVID-19 Relief Fund. It includes federal funds made available through the Coronavirus Response and Relief Supplement Appropriations Act. This bill provides funding for primary prevention services as part of the Substance Abuse Prevention and Treatment Block Grant awarded to the Idaho Department of Health and Welfare. The additional funding to the block grant requires 20% be set aside for prevention services, which will be performed by the Office of Drug Policy.

Funding will be used by the Office of Drug Policy for technical assistance to support the development of a Statewide Strategic Plan for Primary Prevention of Substance Misuse (including alcohol, tobacco, illicit drugs, and prescription drugs); evidence based prevention programs to reduce youth substance misuse; targeted misuse prevention to at-risk populations including youth and young adults related to mental health challenges; and technical assistance through a prevention fellowship program to grow capacity in underserved communities.

This motion includes the total available funds for this grant. If any moneys remain unspent at the end of FY 2022, the appropriation will revert and an additional request would be included in the FY 2023 agency request. These funds must be spent by March of 2023. These funds are not ARPA funds.
